

EPOSBED PROJECT CONSORTIUM COMPANIES

Ten partners are participating in the EPOSBED research project.

The research will be undertaken by the RTDs (QinetiQ and Inspiralia) by a core group of SMEs (Spaldin, LINCIS, FOS, Proteo, Dynamic, Techem, Rioja Salud and Vivisol), who will provide the initial supply chain. These partners have been specifically brought together to provide the necessary blend of skills and expertise and with the common focused aim of developing **an innovative and intelligent-controlled medical bed product** .

There is excellent transnationality with **seven European countries** participating in the project and include Italy (2 companies), Spain (3 companies), UK, Switzerland, Germany, Poland and Portugal with 1 company each.
